

## Expanded production capability

Rieke Metals, Inc. was founded by chemists and run by chemists. For over twenty years, RMI has manufactured novel Grignard and organozinc reagents with exceptional quality and given superior customer service. We take pride in every compound and batch we produce.

### Semibulk to commercial quantities

In order to better serve you and carry your research to the next phase, RMI has expanded production capability in organometallic synthesis.

Our state of the art facility is located in the center of the United States on 5+ acres with full access to interstate, rail and airport.

In-house research keeps RMI on the cutting edge as we strive to make your work easier. Let us help you achieve your goals.
